

FIBER & NETWORK TOOLS

FIBER OPTIC TOOLS

Diamond-Tip Fiber Optic Scribe

- Quality fiber optic scribes featuring a protective retractable barrel with pocket clip and a stainless steel mounted diamond tip in your choice of conical or wedge shapes
- These scribes are specially made for the “scratch and pull” technique of scribing optical fiber. The wedge shape provides a more durable edge
- Made in the U.S.A.

Fiber Optic Crimp Tool

Ratcheting action crimp tool for positive, full cycle crimping of fiber optic connectors.

- Ruggedized steel frame
- Interchangeable jaws
- Several common fiber optic hex and oval jaws available
- Length: 8.6 in (218 mm)
- Weight: 1.1 lb (500 g)

Dual Hole Fiber Optic Stripper

- New Dual hole models offer the same quality of our standard FO 103-S fiber tool coupled with a second hole.
- FO 103-D-J: Second hole for stripping 2-3 mm fiber jackets and standard 125 micron fiber stripping (250 micron removal to 125 micron)
- FO 103-D-250: Second hole for stripping 900 micron tight buffer down to 250 micron buffer coating and standard 125 micron fiber stripping (250 micron removal to 125 micron) – allows longer stripping lengths without damaging the fiber
- Easy-to-read stripping diagrams

7 in 1 Wire Stripper

- For cutting and stripping cable and wire, automatic rebound spring. No damaging of the conductor core.
- HS-1041 : Cutting wire 16sqmm, Stripping wire 0.9-6.0 sqmm. Length: 165mm. Weight: 0.16 Kg.
- HS-1042 : Cutting wire 16 sqmm, Stripping wire 0.2-1.25 sqmm. Length: 165mm. Weight: 0.16 Kg.
- HS-1043 : Cutting wire 16sqmm, Stripping wire 0.25-0.65 sqmm. Length: 165mm. Weight: 0.16 Kg.

Art No	Product Description
FO-EA0003	Diamond-Tip Fiber Optic Scribe
FO-EA0004	Fiber Optic Crimp Tool
FO-EA0005	Dual Hole Fiber Optic Stripper
FO-EA0014	7 in 1 Wire Stripper
