

CARE & CLEANING OF FO CONNECTORS

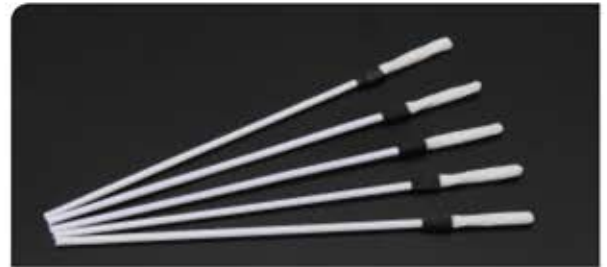

ONE CLICK CLEANER FOR 2.5MM FERRULES

- » Cleans 2.5mm ferrules (SC, ST, FC and E2000)
- » Simple pushing motion to engage tool
- » Audible CLICK to alert the operator when tool is fully engaged
- » Over 525+ engagements per unit
- » Dry cleaning strand eliminates the need for solvents to be effective
- » Crush resistant to over 250N
- » Impact resistant to survive drops over 1.5m

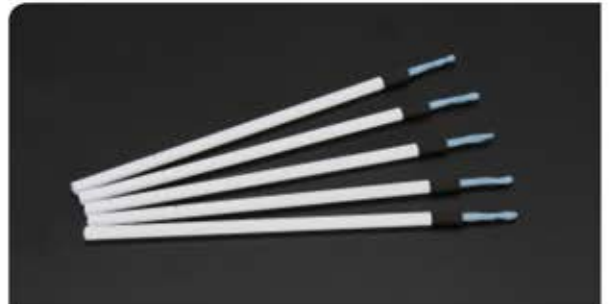

2.5MM FIBER STICKS

Fiber Sticks are the ideal consumable for cleaning bulkheads after installation. They are used to clean the end faces of installed connectors, from inside the enclosure. The snug fit from the foam head will also remove any contaminants found inside the adapter.

1.25MM FIBER STICKS

Fiber sticks are the ideal consumable for cleaning 1.25mm bulkheads after installation. They can be used to clean the end faces of installed connectors, from inside the enclosure. Cleaning is achieved by inserting the fiber tip inside the adapter's aperture and twisting once. The fiber sticks material allows the user to clean installed connector end faces without scratching the surface, and ensures a perfect clean first time.

CLEAN WIPES

- » For Professional & Industrial use only
- » Open packet & clean surface with the pre-saturated cleaning wipe
- » Do not re-use
- » Safe on Plastics
- » Rapidly Evaporating
- » Zero Residue
- » Non-Abrasive
- » Lint-free Fabric
